

Drilling diagram

For making a drilling template please use the following dimensions (in mm).

The diameter of the drilled hole is dependent on the screw employed (screw diameter max. 8mm) and the type of supporting base material (steel, wood, concrete, plasterboard etc.) and must be chosen accordingly.

Start-up

The ExResistTel telephone is ready for operation as soon as it has been connected to the telephone network.

Maintenance

The ExResistTel telephone contains no parts that have to be maintained.
